

Natural Gas Matters

IDEAS AND INSIGHTS FROM YOUR NATURAL GAS SERVICE PROVIDER

Paperless Billing – Easier, Faster, More Convenient

What can save time, postage and trees? Enrolling in the Kansas Gas Service Paperless Billing Program! It's the easier, faster and more convenient way to manage your Kansas Gas Service bill.

Once enrolled in Paperless Billing, you will no longer receive a paper bill in the mail. Instead, you'll receive an email each month letting you know that your statement is ready for viewing. Just click the link provided to visit our website, where you can view your bill and even make a payment online.

Enrolling in the program is easy. First, be sure to register your account online by visiting www.kansasgasservice.com and clicking on "Register Today!" in the upper right corner. Once you're logged in, click on "Billing and Account Options" and select "Paperless Billing" to enroll and enjoy the convenience of Paperless Billing.

Paperless Billing is easy, free and – just like clean-burning natural gas – environmentally friendly! The fewer paper bills cluttering your countertops, the more trees we save. That's a win-win.

Visit www.kansasgasservice.com to enroll in our Paperless Billing Program today. 

Save Money by Saving Energy

Saving energy can help save you money on your monthly utility bills – and who doesn't want that! Here are a few tips to help you be more energy efficient throughout your entire home:

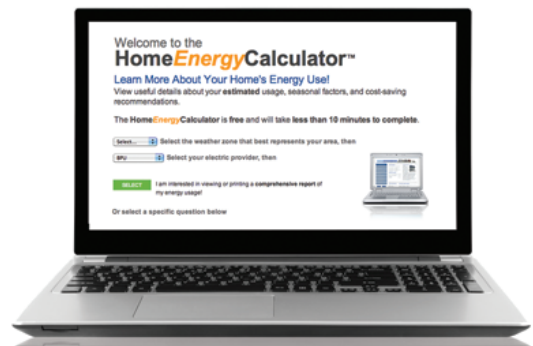

- > Install a programmable thermostat. Save money on your monthly utility bills by using a programmable thermostat to adjust your home's temperature while you're away from the house.
- > Install low-flow devices on your showers and faucets to lower your average water usage, providing extra savings on your monthly bill.
- > When using your cooktop, match the pot size to the burner size and keep the lid on the pot to shorten cooking time.
- > Run your dishwasher only when full. You can also let the dishes air dry instead of using the drying cycle to save even more energy.
- > During winter, open curtains or shades to let the sun warm your house. Close during the night to keep the warm air in.

Want more energy-saving tips? Try the Kansas Gas Service online home energy calculators. These calculators were designed to help customers find the most energy-efficient solutions for their homes. They compare thermostat, appliance, home-heating and water-heating options specific to your home and family to help you discover ways to save energy and money.

HERE'S HOW TO USE THEM:

- > Visit www.kansasgasservice.com and click on "Energy Calculators" under the "Save Energy & Money" tab.
- > Select the calculator you are interested in and follow the prompts.
- > Once you have entered the information, the calculator will answer the question you selected.

Visit www.kansasgasservice.com and start saving money today!

Prevent Carbon Monoxide

Here are a few quick and easy tips to help prevent carbon monoxide in your home:

- > Install and maintain a carbon monoxide detector in accordance with the manufacturer's instructions.
- > Have a qualified contractor inspect your heating and cooling equipment annually.
- > Clean or replace furnace filters regularly.
- > Do not start your car, lawn mower, generator or any combustion engine in a closed garage.
- > Notice the color of the flame on a natural gas appliance. A yellow flame instead of a blue one is a warning sign that the appliance is not operating or vented properly.
