IDEAS AND INSIGHTS FROM YOUR NATURAL GAS SERVICE PROVIDER

The Cold Weather Rule

The Kansas Cold Weather Rule provides special payment arrangements and disconnection and reconnection procedures for residential natural gas customers with unpaid accounts throughout the cold weather period (November 1, 2017, through March 31, 2018).

The Kansas Corporation Commission oversees the provisions of the Cold Weather Rule for all Kansas utility companies, which states:

A utility shall not generally disconnect a customer's service from November 1 through March 31 when the local National Weather Service forecasts that the temperature will be below 35 degrees Fahrenheit within a 48-hour period.

To prevent service interruptions when the temperature is 35 degrees or above, or to have service restored regardless of temperature, you must comply with the following conditions:

1. Inform Kansas Gas Service if you are unable to pay the bill in full.
2. Provide Kansas Gas Service with sufficient information to initiate a monthly payment agreement.
3. Pay one-twelfth of the total account balance, including all disconnection or reconnection fees, plus any required deposit installment.
4. Enter into an 11-month payment plan to pay the remainder of the account balance, plus the current bill.
You may select the Average Payment Plan for current and future consumption.
5. Apply for federal, state and/or local energy-assistance funds.

During the Cold Weather Rule period, Kansas Gas Service is required to give you written notice 10 days in advance of discontinuing service. We also will attempt to contact you by telephone the day before disconnection and will place a disconnect notice on your door if no personal contact is made. If you have questions about the Cold Weather Rule, please visit our website at www.kansasgasservice.com/coldweatherrule or call 1-800-794-4780.
