SCHEDULE RNGI

All Rate Areas

Initial Sheet

No supplement or separate understanding shall modify the tariff as shown herein.

Sheet 1 of 2

Renewable Natural Gas Interconnection Services**Availability**

Available at points on the Company's integrated natural gas system for renewable natural gas (RNG) interconnection service under contract to parties who own or operate an RNG facility ("RNG Interconnection Services"). RNG Interconnection Service is only available to parties who execute a Renewable Natural Gas Interconnection Agreement ("RNG Interconnection Agreement") with the Company for the delivery of RNG to the Company's system. Transportation service is not available under this schedule.

Net Monthly Bill

The following charge applies to RNG Interconnection Services provided to customers interconnected with the Company's:

Connecting Party will pay to ONE Gas an amount equal to \$1,608.90 per month for operations and maintenance of the Interconnection Point (the "O&M Fee").

Definitions and Conditions

1. In addition to the definitions contained in the Company's General Terms and conditions, the following apply to this schedule:
 - a. Connecting Party: The person or entity who enters into an RNG Interconnection Agreement with the Company.
 - b. Renewable Natural Gas (RNG): anaerobically-generated biogas that has been refined for use in place of fossil natural gas, delivered to the Company's system, and meeting or exceeding the Company's natural gas quality standards. Examples of RNG include, but are not limited to, gas produced from a landfill, digester, or other source.
 - c. Interconnection Point: The physical location where the Connecting Party's facilities connect to the Company's system, as specified in the RNG Interconnection Agreement.
 - d. RNG Interconnection Agreement: The contract specifying the terms, conditions, and procedures wherein the Company agrees to receive RNG from the Connecting Party.
 - e. O&M Fee: The monthly fee paid by the Connecting Party for operations and maintenance of the Interconnection Point.
2. Service under this schedule requires execution of an RNG Interconnection Agreement mutually determined and agreed between the Connecting Party and the Company.
3. All RNG delivered by Connecting Party to Company shall meet or exceed the Company's gas quality specifications as set forth in the RNG Interconnection Agreement and the Company's General Terms and Conditions. The Company reserves the right to refuse delivery of RNG not meeting these standards. In the event of a conflict between the gas quality standards contained

Sheet 2 of 2

Renewable Natural Gas Interconnection Services

within the RNG Interconnection Agreement and the Company's General Terms and Conditions, the more stringent gas quality specifications shall control.

4. The Connecting Party shall comply with all operational, metering, and pressure requirements as specified by the Company. The Company may interrupt or curtail deliveries as necessary to maintain system integrity or comply with regulatory requirements.
5. The Connecting Party is responsible for the construction, operation, and maintenance of all facilities upstream of the Interconnection Point. The Company is responsible for the construction, operation, and maintenance of all facilities at and downstream of the Interconnection Point. The Connecting Party is responsible for all costs associated with new or modified facilities required to provide RNG Interconnection Services. Notwithstanding, the Connecting Party and Company are responsible for the materials and components procured, constructed, owned, operated, and maintained as specified in the RNG Interconnection Agreement.
6. The Company will install and operate metering equipment at the Interconnection Point to measure all gas delivered. The Connecting Party shall provide access and necessary easements for installation and maintenance of Company equipment.
7. The Company will issue monthly bills for the O&M Fee and any other applicable charges. Payment is due upon receipt, subject to the Company's General Terms and Conditions.
8. Any imbalances between scheduled and delivered RNG volumes will be resolved as specified in the RNG Interconnection Agreement and the Company's General Terms and Conditions.
9. Service under this rate schedule is subject to the provisions and applicable charges contained in the Company's General Terms and Conditions for Gas Service, or successor documents, approved by the Commission.
10. All provisions of this rate schedule are subject to changes made by order of the Commission.
