

MGP Ingredients Toolkit – KGS

**SUBJECT LINE: Locally-owned MGP Ingredients featured in new video**

MGP Ingredients, based in Atchison, Kansas, relies on natural gas in their manufacturing process to create grains that manufacturers across the U.S. use for food and alcohol. We thought you may be interested in their story.

A couple key highlights they mention:

- **Natural gas is critical to businesses**, the local economy and the daily lives of our customers throughout Kansas.
- **Due to its reliability, affordability and efficiency**, natural gas is the preferred energy choice for Kansans.

**We'd love for you to share this information!** Below, please find a link to our social media post where we showcase the partnership between Kansas Gas Service and MGP Ingredients. We've also provided sample social copy for you.
