# NATURAL GAS MATTERS

A BETTER TOMORROW STARTS TODAY.

## NATURAL GAS – ENERGY FOR YOUR ENTIRE HOME

Natural gas is the energy that makes a house a home. Whether you find comfort from a warm home, a hot shower or a home-cooked meal, natural gas delivers. Plus, it's the smart choice for greater efficiency and lower energy costs.

Learn more about the benefits of natural gas at [www.KansasGasService.com](http://www.KansasGasService.com).

## CAN WE FIND YOUR HOME IN AN EMERGENCY?

In an emergency, first responders and Kansas Gas Service technicians depend on clearly marked addresses to find the right home as quickly as possible. Finding a residence can be challenging if house numbers are unreadable, hidden, unlit or missing. You can help emergency responders and service technicians locate your home by following these steps:

- Replace aging or faded numbers.
- Clear obstructions from blocking your house numbers (hanging plants, bushes, flags, etc.).
- Post large numbers that are visible from the street.
- Place your number near the street or on the curb, with a reflective coating and contrasting background.
- Make sure your house number can be seen from all directions - if your home is on a corner, post the number on all sides facing the street.

## HOW TO READ YOUR METER

Learn how to read your natural gas meter. It's easy; just follow these simple steps:

- Read each dial in the direction of the arrow, starting with the dial on the left.
  - Notice the numbers are in a clockwise position on some dials and in a counterclockwise position on others.
- Record the last number the needle has passed, even if the needle has almost reached the next highest number.
